

CLASSIC

The Classic Style brings together elegance, symmetry and balance and has a beautiful neutral palette that honours traditional architecture and an enduring appeal that is timeless.

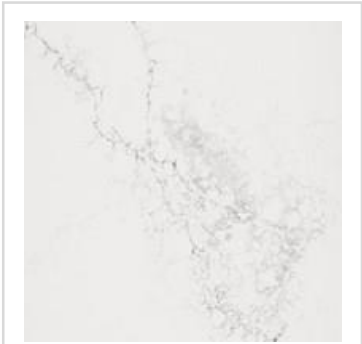

Dreaming of a perfect timeless design.

The Classic Style is all about elegance, symmetry and balance and starts with a beautiful neutral palette honouring traditional architecture but always maintains a homely environment.

It is well considered and has a strong balance of texture, pattern and colour. Light and spacious living areas, crisp white detail with soft neutrals, layering of textures and organic colours like eucalypt green, duck egg blue and butter yellows as accents.

There is no denying the enduring appeal that the Classic Style delivers, which will grow with you and your family for years to come.
